

Orange financial results

#FY_2018

21 February 2019

Stéphane Richard
Chairman and CEO

Ramon Fernandez
Deputy CEO, Finance, Performance and Europe

Disclaimer

This presentation contains forward-looking statements about Orange. Although we believe these statements are based on reasonable assumptions, they are subject to numerous risks and uncertainties, including matters not yet known to us or not currently considered material by us, and there can be no assurance that anticipated events will occur or that the objectives set out will actually be achieved. Important factors that could cause actual results to differ from the results anticipated in the forward-looking statements include, among others: disclosure or inappropriate modification of the personal data of Orange's customers, risks relating to the development of its banking activities and of mobile financial services, Orange's exposure to geopolitical, macroeconomic, regulatory and corruption risks, the risk of not being able to maintain control over customer relations when facing competition with the OTT players, the success of Orange's strategy of diversification to find new sources of growth, network or software failures as a result of cyber-attacks, various frauds that may target the Company or its customers, its dependence on a limited number of critical suppliers, damage caused to its installations and infrastructures due to natural disasters or intentional damage, risks relating to its brand strategy, its ability to retain the necessary skills due to numerous employee retirements and changes in its businesses, possible adverse health effects from exposure to electromagnetic fields from telecommunications equipment, various human factors related to psycho-social risks and to personal safety, fiscal and regulatory constraints and changes, the results of litigation regarding in particular regulations and competition, the terms of access to capital markets, interest rate or exchange rate fluctuations, Orange's credit ratings, changes in assumptions underlying the carrying value of certain assets and resulting in their impairment, and credit risks and/or counterparty risks on financial transactions. More detailed information on the potential risks that could affect our financial results is included in the Registration Document filed on April 4, 2018 with the French Autorité des Marchés Financiers (AMF) and in the annual report on Form 20-F filed on April 4, 2018 with the U.S. Securities and Exchange Commission. Forward-looking statements speak only as of the date they are made. Other than as required by law, Orange does not undertake any obligation to update them in light of new information or future developments.
